## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3, 18 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claim 3 is ambiguous. It might be further narrowing the step (a) temperature, or it might refer to so other step, e.g. the hydrolysis reaction of step (c). Note claim 11 in this regard. The traverse is unpersuasive. Applicants argument is that since claim 2 limits the temperature of step (a) , and claim 3 depends on claim 2, than claim 3 must be referring to step (a). This is not logical. One knows which step is limited in claim 2 because claim 2 states that it is step (a). Claim 3 fails to state which step it is. Applicants seem to feel that if claim 2 refers to step a, then claim 3 must be referring to step a. But there is no reason which claim 3 has to narrow claim 1 in the same way that claim 2 narrows claim 1. Claim 3 could just as well provide for temperature controls on both step a and some other step as well. Suggested is putting the “in step (a)” limitation into claim 3, to reflect applicants actual intention.
2. The intent of claim 20 is unclear. It appears to be identical to claim 18. Is the dependency wrong? The traverse is unpersuasive. It appears that applicants do not quite understand the scope of the claims, as they insist that claims 18 and 20 are different. Acid appears in both steps d and e. Claim 17 limits ONLY the acid of step d.

Art Unit: 1624

Claim 18 is stricter. It limits “the acid”. Therefore, it limits both the acid of step d and the acid of step e). Applicants appear to be reading claim 18 as limiting only the acid of step d, but it has no such claim language. Claim 20 does the exact same thing. It limits both acids to aqueous HCl. This can be fixed by adding “in step (e)” to claim 20, and “in step (d)” to claim 18. Such an amendment would allow the claims to reflect applicants’ actual intent, which at present they do not.

Claim 21 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The claim as written does not limit claim 1, as claim 1 does not provide for cefixime trihydrate in the first place, only cefixime itself. The remarks are noted, in which applicants state that claim 1 is correct as written.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
